

Campus Ambassador Program

The GYWS - Campus Ambassador Program seeks youth ambassadors who will promote and represent GYWS across India. The CAP program aims to drive campaigns and activities related to GYWS which will be promoted by them in their respective colleges. It further aims to create long-term bonding in the student body across colleges by using CAs as their point of contact. Finally, the overall objective of CAP is to motivate youth to carry on the social drive and contribute to the upliftment of weaker sections.

We saw great participation in the Campus Ambassador Program for this year and are happy to announce that we have 16 new people on board with us from different colleges.

The poster features the GYWS logo at the top left, followed by the title "CAMPUS AMBASSADOR PROGRAM" and the text "BE OUR FACE IN YOUR CAMPUS". Below this is an illustration of a man with a beard and a woman holding a sign that says "Why join us?". To the right of the illustration is a vertical list of four benefits, each with an icon and a title: 1. "INCENTIVES" (icon of a coin) with the text "Grab a chance to get a sponsored IT KDP visit, free travel ticket and a certificate of appreciation"; 2. "OPPORTUNITIES" (icon of a target) with the text "Be the part of India's one of the largest student-run NGO network with an strong alumni support and mentoring"; 3. "EXPERT GUIDANCE" (icon of a person) with the text "Get time to one-on-one learning session and guidance from field experts to tackle and solve problems"; 4. "BE A LEADER" (icon of a person with a star) with the text "Be the face of GYWS in your college and get a chance to become a social entrepreneur by joining our experiential program LEAD and lead a socially motivated team". At the bottom right, it says "For more information, visit gyws.org".

Celebrating Children's Day

A drop in the Covid-19 positivity rate around November allowed for a small-scale Children's Day celebration for our JVM students. Our students were overjoyed meeting one another and their teachers after long sessions of online classes in the past year. The teachers strived to make this special by organizing a Drawing Competition as well. Our young creative minds painted beautiful masterpieces and the fun activity culminated by awarding prizes for the best drawings. Catch a glimpse of the Happy faces from the day's celebration here.

LiHT

LiHT Samvedna

With an aim to assist orphanage youngsters through various government and corporate-sponsored higher education initiatives, LiHT Samvedna organized an event where orphanages were visited and the details of the eligible students were collected. In order to spread awareness, the LiHT Samvedna team educated the orphanage administrations regarding the schemes and guided them in applying for them.

LiHT Wardha

Light Wardha started an initiative, "CONVOCARE - Few Hands Many Hopes" to assist students with their mental health. Mental health is an integral and essential component of health. A session was organized for the students to teach them how to cope with everyday stress and be productive.

LiHT Sindri

LiHT Sindri organized a webinar with Mr. Mukul Goyal, Quality Educations Asia as the speaker on "Advancement in teaching Methodologies" for Primary and Secondary school teachers on 28th November. Having run online classes ever since the pandemic struck, the need to adapt to newer technologies has been clearly evident and a live demonstration of the use of chatbots was done in the workshop.

PRAYAS

JoSAA Counselling Programme

PRAYAS organized mentoring sessions for the students, who passed the JEE Advanced exams, to assist them in choosing the appropriate institute and branch. The enrolled students were given guidance by a team of Education and Exam Counselors working with KMC, a PRAYAS initiative to strengthen rural and social enterprises. During the JoSAA counseling process, each mentor was allotted two students to support them and satisfactorily answer their questions. This was the first initiative of its kind taken by PRAYAS. The Counseling Program had a total of 14 students enrolled and provided a platform for these students to learn from the experiences of the 5 mentors. The goal of helping these students in making the right decision was successfully achieved.

Why Us?

ONE TO ONE MENTORING

FROM THE PEOPLE YOU ASPIRE TO BE

CHOOSE THE COLLEGE/BRANCH THAT SUITS YOU

Student Impact Assessment

Impact Assessments are conducted by the School Review Committee team at regular intervals to monitor the progress of a child at Jagriti Vidya Mandir over the academic year. Overall student performance, when comparing percentages from August and December graphs, showed an effective rise for most classes, and communication workshops over the weekends have clearly enhanced students' Soft Skills.

Care is being taken to ensure holistic development of the children. Students in pre-primary classes have performed well since the implementation of student-centered learning. When comparing August and December, there is a net improvement in children's social and emotional skills.
